

R&D Mechanics Intern Varginha/MG

We're looking for a **Research & Development Mechanics Intern** to join our **Digital Solutions team in Varginha/MG**.

Working for Signify means being creative and adaptive. Our culture of continuous learning and commitment to diversity and inclusion creates an environment that allows you to build your skills and career. Together, we're transforming our industry.

As the world leader in lighting, we're constantly ahead of the curve. Through our leadership in connected lighting and the Internet of Things, we're breaking new grounds in data analytics, AI, and smart homes, offices, cities and more!

Signify is one of the few companies in the world to achieve carbon neutrality and our next sustainability goals are even bolder: doubling our positive impact on the environment and society by 2025.

As a **Research & Development Mechanics Intern**, you'll be responsible for product validation tests execution and test reports generation.

We're on the lookout for forward-thinking innovators with a passion for sustainability. If you match this description, get in touch!

What you'll do

- Modify and update the existing drawings, according to the needs.
- Develop component drawings for new products.
- Control the distribution and filing of drawings and technical documentation.
- Manufacturing and quality support for product designs and labels.
- Assist in the registration of raw materials and components.

Your qualifications

- **Must be studying Mechanical Engineering (technician or bachelor's degree). **Preferable with graduation in December 2024/2025.***
- **Intermediate English is MANDATORY.**
- **Domain in CAD softwares (Solidworks / CorelDraw).**
- **Domain in MS Office tools (Outlook, Word, Excel and Power Point).**

- ✓ Bolsa auxílio.
- ✓ Benefícios.

What you'll get in return...

We're offering multiple opportunities for career development, like mentoring, coaching and stretch assignments, with strong international exposure for dynamic profiles. Learning is fundamental to our culture. Through continuous learning, we are transforming the industry. You have the chance to learn every day, acquire new skills and perspectives through customized online programs, and on-the-job experiences.

See [#SignifyLife](#) through the eyes of our employees!

Who we are?

Signify is the world leader in lighting. We provide professional customers and consumers with quality, energy-efficient LED lighting. And our lights, when connected, bring data to devices, apps and people – redefining what light can do and how you use it. Today, our innovations, such as LiFi – internet connectivity through light – and UV-C, solar and horticultural lighting, contribute to a safer, smarter, more sustainable world.

We're operating in 74 countries with 32,000 people worldwide.
